

This comment is regarding telemarketing laws. I believe telemarketing should be banned. My phone is my property, I pay for it, and for any unwanted person to use it is trespassing on private property. You currently have rules for telemarketers that require action by the homeowner. Why should the homeowner have to do anything? Simply ban telemarketing. This has nothing to do with freedom of speech as I have heard some declare. Telemarketing is the most common form of harassment to a homeowner. I receive so many telemarketing calls that I do not answer my phone anymore. I now let my answering machine screen the calls. I have never and will never purchase anything by phone. Please ban this annoying practice and make the telemarketing companies pay to use radio, TV and print advertising. Thank you!
